How-to Guide for Evaluation Reporting System (ERS)

U.S. ARMY

What is ERS?

- **Evaluation Reporting System (ERS):** Provides field users visibility of evaluation administrative information for Non-Commissioned Officer Evaluation Reports (NCOER) and Officer Evaluation Reports (OER) and Academic Evaluation Reports (AER) in all phases of processing from Initiation to Update through HRC to IPERMS and update of Officer and Enlisted Record Briefs (ORB, ERB).
- *Also tracks older DA2166-8 NCOER and DA67-9 OER*
- *Access is granted via Evaluation Entry System*

You are accessing a U.S. government (USG) information system (IS) that is provided for USG-authorized use only. By using this IS (which includes any device attached to this IS), you consent to the following conditions:

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the USG may inspect and seize data stored on this IS.

Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.

This IS includes security measures (e.g., authentication and access controls) to protect USG interests--not for your personal benefit or privacy.

Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See [User Agreement](#) for details.

FOR OFFICIAL USE ONLY

Time run: 5/18/2021 11:46:48 AM

- Purpose:** This report contains information on OERs, NCOERs, and AERs for the Active, Reserve, and Guard components.
- This report does not reflect any reports which are classified and processed under the classified system.
- AERs that were manually uploaded as a pdf-f document are not included in this report.
- AR 623-3 and DA PAM 623-3 contain the policy and process for military evaluations.

- This report reflects the command code on the evaluation, not the command code with which the Soldier is currently associated.
- Because UIC and Command are not captured on an AER, AERs will not be listed on the report if the UIC, DML, DMSL or Command are used.
- This report might time out when the period of time or data requested is too large. We recommend using shorter periods of time at first.

Status Reports

FOR OFFICIAL USE ONLY

Time run: 10/1/2014 8:54:16 AM

1. Purpose: This report reflects information on all OER & NCOR regardless of component (except for ARMO-NGOER) which reflect a specific command code and which have thru dates falling between specified period of time.

2. This report reflects the command code physically on the evaluation, not the command code, with which the Soldier is currently associated.

3. This report might not be helpful as the last evaluation might be from a different command code. Also, if the command code is not entered into the HQDA level database correctly (which happens frequently with paper copies) a specific report may not reflect. Evaluations digitally signed & submitted electronically have the best chance of having the correct data, the real best chance of correct data comes with evaluations digitally signed and emailed as xfd attachments.

3. This report does not reflect any reports which are classified and processed under the classified system or AER.

4. This report might time out when the period of time or data requested is too large. We recommend using shorter periods of time at first.

5. AR 623-3 and DA Pam 623-3 contain the policy and process for military evaluations.
